ABOUT US

More than a game. A place to belong.

From an idea to the arena

OUR STORY · EST. 2023

Built by a gamer, for gamers.

In 2023, Jason Naidoo, an avid gamer, established Next Level Gaming & Esports Arena after noticing that many gamers lacked access to high-performance equipment and organised events. This inspired the creation of a modern entertainment venue where gamers of all ages can play, build, and perfect their craft.

TODAY

The arena welcomes everyone

Casual gamers, competitive gamers, families, schools, and gaming clubs all have a place here. Whether you drop in for a session, host an event, or build a team, the arena is designed to feel welcoming, professional, and ready for play.

OUR VISION

Quality gaming, community, and innovation

We aim to provide quality gaming, grow esports, build community, support schools and businesses, and keep innovation alive in African countries like South Africa and beyond.

Meet us at the arena
